Why Protest Bush's Visit to Santa Clara on Friday, May 2nd

- ◆ Cutting taxes for the rich and at the same time cutting 46 educational programs as well as healthcare benefits to the disabled in order to increase military spending to more than 399 billion dollars in 2004 is not helping working people in America.
- ◆ Destroying a country to control its oil and give multi-million-dollar contracts to defense companies and others with close ties to the White House such as Shell, Bechtel, and Halliburton is not helping America to get out of recession.
- ◆ We Americans don't accept destruction of Iraq's infrastructure, the killing of thousands of helpless civilians, and occupation as "liberation".
- ◆ Undermining labor rights, environmental protections, civil liberties, and freedom at home in the name of fighting terrorism is not in our interest either.
- ◆ Bring your own signs to let Bush know what do you think about his economic plan for Silicon Valley with the highest unemployment rate in America.

And the list goes on, making clear that the Bush administration represents the richest of the rich and not working Americans.

Join with thousands of Bay Area residents to protest Bush's pro-war and anti-people policies **on Friday, May 2nd. For more information please call 408-998-8504 or visit www.southbaymobilization.org.**
